Right Equipment! Better Life!

Shower chairs are used for those who have difficulty standing in the shower, such as the elderly, disabled individuals or those recovering from an injury. Also known as a shower bench or shower stool with back, these chairs range from simple, lightweight to more heavy weight model. Heavy weight model is called bariatric shower chair. All of our shower chairs are made from sturdy, water-resistant materials and are equipped with non-slip feet. Back of shower chair comes with detachable option.

- **Shower chair is paid by Public Aid and allowed to be replaced once every year in Illinois.**
- **Due to sanitary reasons, it is strongly recommended to replace it annually.**
